

BUNDESTAG: GO EUROPEAN! For more European democracy!

We, an alliance of pro-European organisations, are calling on the German Bundestag to make intensive use of its political influence on European politics to secure and strengthen European democracy in the nineteenth legislative period. The new members of the German parliament are to make the necessary provisions to this end. In concrete terms, we are calling for a strong commitment to electoral law, the reform of EU institutions, safeguarding democracy and the rule of law, and transparency.
